- 40b Any Handicraft

Children's Shield Over 8

- 41 Cooking – Plaited Bread Loaf
- 42a Decorate a Flower Pot
- 42b Any Handicraft

How to make the Hairy Caterpillar

You will need:

A piece of J cloth

Some Compost

Grass seeds

Rubber bands

What to do:

1. Sprinkle handful of grass in rough line onto middle of the cloth
2. Sprinkle some compost over the seed
3. Wrap the contents inside the cloth in a long sausage shape. (like you would wrap a present)
4. Place rubber bands along the body to differentiate parts of the caterpillar body, (and to hold it in place)
5. Keep moist while you wait for the hair to grow. (This takes just over a week to start)
6. Decorate to look like a hairy caterpillar.
